Tip of the Month

Many Pranic healers report that it is very effective to cut all "unauthorized and inappropriate" energy cords before going to sleep at night. It is noticed that there is substantially more energy upon awakening!

Wesak Full Moon

Wesak is named for the legendary convergence of Buddha, Christ and other Masters in the hallowed Wesak Valley in the Himalayas during the Buddha (or Taurus) full moon. The Wesak Festival is a result of bridge-building between humanity and the Divine. The convergence is celebrated variously in cultures throughout the world, including annual pilgrimages to the original site.

The Great Invocation is sounded and the Lord Buddha passes a Ray of Energy to the Christ, who then passes it to all of humanity. The Great Enlightened One, after blessing the crowd, slowly disappears. The legend tells us that the Christ blesses for one minute, but that one-minute blessing lasts for an eternity!

This year we are especially Blessed to have two full moons in Taurus in which to access and anchor the Blessings of the Higher Beings. The first was in April and the second will be on May 19th at 7:11 p.m. PDT.

Meditations will be held around the world at that time by many different groups, including Pranic Healers.

If you wish to join a group in Portland, Linda Merrick's Full Moon meditation will **start at 6:45 pm on Monday May 19th**, to ensure the meditation is in process at the peak of the full moon at 7:11 p.m. Please note the early start time. The spiritual energies released can be harnessed during group meditations and can be used effectively to bless our loved ones, our projects, Mother Earth, and to help humanity. Full Moon is the best time in the month for spiritual, mental, emotional and physical rejuvenation. Invite your family & friends, all are welcome!
